**CONSENT DECREE**

The Downstate Illinois Laborers' District Council and its Affiliated Local Unions, and Respondents Jane R. Flanagan, Director of the Illinois Department of Labor, resolve the above-captioned matter pursuant to 56 Ill. Admin. Code 120.540 as follows:

1. This matter arises under the Illinois Prevailing Wage Act ("IPWA"), as amended, 820 ILCS 130/0.01, *et seq.*
2. Pursuant to Sections 4 and 9 of the IPWA, Objectors timely filed written objections to the prevailing wage rates effective July 15, 2025 pertaining to clarifications of geographic boundaries for the counties of Bond, Clinton, Madison, Monroe and St. Clair for the trade classification of Laborer and Asbestos Abatement - Gen.
3. Pursuant to Sections 4 and 9 of the IPWA, the Department scheduled a hearing on Petitioner's objections, issued a Notice of Hearing to Petitioners, and provided notice of the hearing to the public by posting the date, time, location, and other pertinent information.
4. In support of the geographic jurisdictions Petitioners state that, the current geographic jurisdictions that are posted on the Departments website do not accurately reflect the actual jurisdictions of the local unions within the affected counties, which often leads to confusion when work is being performed in said counties.

5. Through collaboration with the Department, the Petitioner has been able to produce descriptions that accurately reflect each local's geographic jurisdictions. The rates and descriptions for each affected county are as follows:
